

Literacy

Pupils will focus on poetry, including free verse and simile. Followed by a narrative study of 'We're Going to Find the Monster!'.
'We're Going to Find the Monster!'.

Pupils will write rules and recounts based on 'Boris Goes Camping' and events throughout the academic year.

Numeracy

In numeracy, we will be focussing on practical real life number skills.
Pupils will consolidate work on time, money and measure, solving problems about change, working out cooking times and measuring ingredients.
The strands we will cover are multiplicative reasoning, measure, number and geometry.

Science

Pupils will explore rocks, their types, uses, and formation, alongside states of matter, changes through heating and cooling, the water cycle, and reversible and irreversible changes.

Communication

In these lessons we will focus on the pre-requisites of communication, responding appropriately and tone of voice, through a range of games and social activities.

Geography: Pupils will be developing map skills, compass use, and geographical comparisons, focusing on countries, continents, oceans, and human and physical geography.

History: Pupils will study Ancient Egypt's timeline, key figures, culture, religion, and lasting achievements.

RE: We will be exploring religious beliefs, moral guidance, shared values, and global responsibility.

Fry Class Curriculum Overview

Summer Theme: Dangerous planet

Music & Drama

In music, pupils will create soundscapes and a class song based on natural disasters.
In drama, pupils will work on stage types & positioning.

Art

Fry class will be making 3d models of natural (physical) features linked to the dangerous planet theme e.g. a volcano. We will also be exploring textures such as tree bark and colour mixing.

Technology

The Summer Term will start with computer Science where pupils will learn about remote controlled and programmable devices such as 'Blue Bots' and floor roamers.

Moving to Food Technology with Mrs. George exploring recipes such as breakfast scones (savoury - cheese & ham), quick bean enchiladas and meat free jollof rice.

PSHE & RSE

Pupils will learn about healthy relationships and contraception, online safety, consent, media literacy, financial security, critical thinking and responsible decision-making.

PE

Pupils will develop athletic and rounders skills, covering sprint starts, hurdles, relay changeovers, jumping, discus, and javelin, alongside fielding, batting, and game strategies in rounders.

Pinewood Outdoors

Pupils will be taking part in archery and paddle boarding (information to follow).
