

English

This term we will be working on producing a personal narrative, taking inspiration from a key text that supports our history topic of the Romans. We will be weaving in grammar lessons to support the construction of the final pieces of work.

Daily Phonics lessons will continue to use SMART KIDS The Code scheme. Individual 1:1 reading will also be maintained.

Maths

This term's topic will be working on number and place value, finding comparisons, counting on and back from a given number.

Next steps will be adding, subtracting and finding part or a whole of a number. We will also concentrate on using money, making combinations and finding change.

Science

The first part of the term will be studying teeth and skeletons. Looking at different types of skeletons, muscles and their functions in the body.

The next focus is studying the life cycles and processes of animals and humans.

History

We will be studying The Romans looking at how they invaded and settled in Britain. We will then go on to study the Vikings- their way of life and delving into the Norse Gods.

Geography

We will be studying the United Kingdom in terms of countries and cities along with natural features. We will go on to look at Europe including countries that make up continents.

Fry Class Autumn Curriculum Overview

RE

Values and practices within different beliefs along with symbols associated with different cultures and religions.

Moral stories that explain right and wrong and how they guide people in making decisions.

Art

Mosaics will be made along with Roman shields and an interpretation of a Roman coin. Using different materials to make a range of Roman and Viking artefacts.

PSHE & RSE

Relationships, focusing on healthy and unhealthy relationships and how to communicate effectively.

We will then begin to look at recognising strengths we possess and begin to think about possible career options and goal setting.

Drama

Using our bodies to show how we show emotions and working on the "Funny Bones" resource to show and interpret feelings and emotions.

Music

Using our bodies to create a percussion piece. Using "Garageband" to create a piece of music along with the use of drums.

PE

This term we will be looking at UniHoc and Netball (Finding Space/Ball control, Passing/Teamwork Shooting/Games)

PO

Fry Class will be following a broad curriculum for Pinewood Outdoors, with the current focus being on bushcraft in a range of woodland settings.
