

English

In English Wonder class will be creating 2 different books. We will be writing to inform and creating their own fact books to inform others of things they like and learning different ways of beginning sentences. The second book will be writing to entertain, creating their own animal story focusing on the structure of sentences using colourful semantics

Maths

In Maths Wonder class, students will begin to understand why numbers and quantities are described as odd or even. They will then progress to accurately counting from 1 to 20, arranging numbers in the correct order, and identifying one more or one less than a given number.

Science

Children will learn that animals, including humans, need the right food to stay healthy and get their nutrition from what they eat. They will also explore simple food chains, learning about producers, predators, and prey.

History

Children will explore British history, learning about changes in everyday life over time and discovering who the Vikings were, how they lived and their impact on Britain.

Geography

Wonder class will use maps, globes, and simple digital tools to find countries and describing the features. They will also begin to learn about how people live and use the land, the jobs they do, and where things like food, water, and energy come from.

PSHE & RSE

In PSHE & RSE Wonder will be exploring different types of families, including living with carers and grandparents. They will then learn about conflict, what it is, and strategies for resolving it.

Class Wonder

Spring Curriculum Overview

RE

In Wonder class, children will explore reflection and different places of worship. They will also learn about the meaning of prayer and how it relates to identity and belonging.

Art

Art will be incorporated across all subjects within the spring term

PE

Pupils will be exploring two units of learning this term:
Target Games
Gymnastics

PO

Half term 1: Problem solving & First Aid
Half term 2: Climbing & Navigation skills

Drama

In Drama Wonder, we will begin by exploring mime and its techniques. They will practice following simple directions to perform mime and will progress to acting out a short performance for the rest of the class.

Music

In Music Wonder, children will explore *Animal Carnival* by listening carefully and identifying the different instruments used in the music.
